

RAPHAEL ACADEMY

Student Profile (Grades through Transition)

Raphael Academy is a private school for children who may have been in other private or public schools, but would benefit from a more practice oriented, adapted Waldorf curriculum.

Raphael Academy's classrooms will provide a teacher and an assistant, but cannot provide one on one assistance to children who need individual full time academic or social inclusion assistance.

Individual aids (shadows) for academic or medical support may be considered on a case by case basis up until the student enters the sixth grade. All fees associated with an aid would be the responsibility of the family. Please know we are not able to accommodate students who require shadows due to behavioral issues that would distract from classroom instruction or the safety of our faculty and students. All aids must be interviewed, approved, and background checked by Raphael Academy.

In order to provide a positive learning environment, Raphael Academy cannot accept children who are physically aggressive (hitting, biting, kicking, slapping, spitting, cursing, etc.) towards other students or staff.

(Raphael Academy accepts children who have independent toileting skills and do not require assistance going to the bathroom. Please know that we do not have a school nurse on staff.)
